MESSAGE

I am delighted to know that All India Judges Association is publishing a souvenir on the occasion of All India Judges Conference at Jaipur on 21-22nd January, 2012 on the theme "Indian Judiciary-Vision 2022".

In the present scenario, the judiciary has become the last refuge for the people. Under the Constitution, the Judiciary is entrusted with the task of not only ensuring the working of the Government according to the provisions of law, but also protecting the fundamental rights of the citizens by upholding rule of law and access to justice for all. The legal profession has to be rationalized and channelised to harness the forces for which end it has a changing role to meet the current societal needs in the wake of globalization and changing pattern of litigation & technology. In this perspective, the theme chosen by the Association has assumed great importance. To ensure discharging of pioneer role by the Judicial Officers effectively and to maintain trust and confidence of people in the Judiciary, we have to take effective steps for betterment of judicial functioning by providing them optimum infrastructure and amenities. I am confident that this conference will yield fruitful results.

I wish the conference a grand success.
